OSBORNE

Corn Binders**Just Arrived at
North Bros. Company**

E-B OSBORNE CORN BINDER has lighter draft because of "outside drive." The secret of E-B Osborne light draft lies in the drive on the outside of the main wheel and the pole attached between the driving mechanism, and the operating mechanism. This feature equalizes the strain and reduces wear. That's why you can cut more corn with less power with an E-B Osborne.

These binders can be equipped with bundle carrier, bundle-wagon elevator for quick handling of silage corn, tongue truck and tractor hitch.

Papec Ensilage Cutters**Cut More and Elevate Higher**

Than any other Blower Cutter

**"IT THROWS AS WELL AS BLOWS"**

The Papec cutter comes to you already for business—nothing to set up but the pipe.

On less power the Papec will throw ensilage from 15 to 20 feet without the application of the air blast. These cutters have so many superior qualities that we would suggest you drop in and let us "show you."
